Our 4 week puppy class gives the new pet owner a good understanding of the most common puppy problems and the best ways to deal with them.

The pet owner will receive detailed information on all aspects of puppy care including housebreaking, crate training, biting, jumping and much more. You will receive a complete handout package to take home for referral.

IN-KENNEL TRAINING

This 7-day or 14-day program is ideal for people going on vacation or whose hectic schedules don't allow time for our weekly classes. Your pet will be boarded at our facility for 7-14 days and taught the basic AKC commands necessary to gain control and establish authority.

These commands include heel, sit, stay, down, come and the use of proper correction.

At the end of the course a graduation time is set to fully instruct you on all the commands learned. In-kennel training is offered for Basic, Advanced and Refresher lessons.
